

## Christiana Campbell's Tavern Evening BILL of FARE

EARLY Americans who lived along the Atlantic seaboard enjoyed a variety of fish and seafood when they dined or supped at home or at local taverns. The diaries of George Washington and several other travelers to Virginia's colonial capital mention eating oysters at Christiana Campbell's Tavern. Recipes for the seafood and fish items on the menu today are inspired by the tastes and culinary influences that eighteenth-century travelers like Washington encountered in their journeys between Massachusetts and Georgia.
